## VEGETATION MANAGEMENT

As full-service utility partner, Asplundh brings experienced personnel, specialized equipment, innovative technology, and logistical resources to execute successful vegetation management programs. From simple to complex, we handle a range of job requirements, including tree pruning and removals, right-of-way clearing and maintenance, herbicide application, emergency storm work and logistical support. Regardless of the job size and scope, the Asplundh team can do it more safely, efficiently, and effectively, and at a lower cost.

## PROTECTING OUR COMMUNITIES

For every customer we serve, our number one priority is ensuring the safety and health of our employees, our partners, and the communities we serve. Safety is a core value at Asplundh. We value the safety of our people and the communities in which we operate. In our roles as first responders, we extend this duty of care to our communities and people and take every precaution to ensure public safety.

### INVESTOR-OWNED UTILITIES

From routine line clearance to capital clearing and emergency storm restoration work, Asplundh's experienced personnel, specialized equipment and unmatched expertise have proven essential to investor-owned utilities that rely on us for managing vegetation along transmission and distribution lines. We are a valuable partner in developing efficient and effective vegetation management programs to meet the North American Electric Reliability Corporation standards (NERC).

### LINE CLEARANCE

Since 1928, Asplundh has provided professional, cost-effective line clearance services to utilities and municipalities. While we offer a much wider range of specialized services today, line clearance is still the core of our business.

Asplundh's line clearance services include:

- Trimming and removals along distribution and transmission circuits
- Aerial- and ground-based side-trimming to widen off-road ROW
- Herbicide application to selectively control undesirable vegetation
- Mechanical or manual ROW clearing for new service
- Emergency storm service
- GPS locating and cataloging of vegetation on ROW
- NERC compliance and risk assessment

As a full-service utility partner, we bring a wealth of experience, specialized equipment, innovative technology, and logistical resources to every job we undertake.
